

TRUCK WITH FOLDING SIDEWALLS

ABSTRACT OF THE DISCLOSURE

A pickup truck includes a cab and a bed with sidewalls. In most forms, the bed will also include a tailgate that may be closed in an upright position that in most cases will be substantially vertical, and opened in a horizontal position. Each of the sidewalls can also be
5 deployed, moving from a closed upright position to an open horizontal position. Optional features include a tonneau cover that may be secured atop the bed or raised to an elevated position.
